## NEWS RELEASE

# Meet Some of the Nation's Most Impressive Projects and the Communities They'll Serve

## Honoring the Nation's Best Design-Build Projects

The Design-Build Institute of America is proud to announce its [2021 National Design-Build Project/Team Award Winners](#).

*"America's design-build teams continue to deliver some of the most innovative, resilient, cost and time-efficient projects in the nation. Whether it's a huge multi-million-dollar infrastructure project or a small community center, these national design-build winners show how the industry is changing the way America builds – even during a pandemic. Now, more than ever, our communities will rely on that transformation as we work to rebuild our post-COVID economy. DBIA is proud to honor this year's design-build project and team winners who exemplify how the teamwork and innovation inherent in design-build can foster environmental stewardship and social responsibility, maximizing long-term value to the project, the team, and the community at large."...Lisa Washington, CAE, DBIA Executive Director/CEO...Lisa Washington, CAE, DBIA Executive Director/CEO*

DBIA's 2021 award-winning projects were evaluated by a distinguished panel of experts in design-build project delivery. Each of these Merit Award winners will now go on to compete for a National Award of Excellence and Project of the Year to be announced at DBIA's [Design-Build Conference and Expo](#) Awards Ceremony in November.

### Aviation

[LAX Midfield Satellite Concourse](#)

Los Angeles, CA

[Nashville International Airport Concourse D and](#)
