Call for Presentations Guidelines
Submission Deadline: Sept. 6, 2023

Design-build currently represents 42% of all construction spending and recent FMI market analysis projects design-build will account for nearly half of all spending by 2026. Among the factors spurring this growth is the documented cost and schedule performance of design-build, as well as the flexibility afforded by various procurement approaches ranging from Best-Value to Progressive Design-Build. Given the explosive growth of design-build, understanding best practices, challenges, obstacles and opportunities is more important than ever for both Owners and practitioners. With Highway/Street projected to represent the largest growth segments in design-build spending over the next three years, and other areas of transportation (i.e., airports, transit, ports, etc.) among the fastest growing segments, sharing practical application techniques, lessons learned and key success factors are critical to optimizing this highly flexible project delivery method.

Do you have a design-build story to tell or “lesson learned” that you can share with the industry? How are you keeping up with the rapidly evolving world of project delivery?

The Design-Build for Transportation/Aviation Conference taking place in Cincinnati, Ohio, Apr. 17–19, 2024, is the perfect opportunity to share those insights and showcase how and when Owners should choose design-build to deploy their capital projects with confidence in uncertain times, and how industry must rise to the challenges posed by a volatile market.

DBIA is calling on subject matter experts — Owners, practitioners and other key industry experts — to share lessons learned, tools, resources and more. Don’t miss your chance to join more than 1,000 of your peers in learning and networking at the 2024 Design-Build for Transportation/Aviation Conference in Cincinnati.

Criteria/content we are seeking:
- Presentations that are educational with crisp instruction and clear takeaways on the “how to” of Design-Build Done Right®
- Presentations that dig into project challenges, emphasizing lessons learned
- One or more presenters who hold a DBIA credential
- Owner involvement in the presentation
- Panels that represent a diversity of voices and perspectives (e.g., gender, race, age, market sector, geography, etc.)

Content to avoid:
- Self-congratulatory presentations on a project
- Anything that provides a sense of commercial/brand promotion
- Anything that does not precisely relate to the Design-Build delivery method
- Presentations that offer a limited perspective and do not reflect the view(s) and contributions of the whole team
Abstract Topic Suggestions

How the Industry Is Evolving
- Ever-Changing Collaboration and Co-Location
- Ever-Changing Engineering
- Ever-Changing Contracting
- Ever-Changing Pricing and Supply Chain Management

Potential Tools/Future of Design-Build
- Progressive Design-Build: What Have We Learned So Far? What Is Working and Why and What Can We Improve Upon?
- Virtual Design and Construction (VDC) BIM
- Public-Private Partnerships and Design-Build
- Innovative Financing Solutions
  Design-Build to Achieve Sustainability Goals (i.e., EVs, Charging Stations, etc.)

Procurement and Contracting Best Practices
- What New Lessons Have We Learned?
- Small Project Successes, Is the Juice Worth the Squeeze?
- Risk Management Techniques, Identifying, Monitoring and Balancing Risk in Design-Build
- From the Design-Build Team Perspective
- From the Owner’s Perspective

Owners and Design-Build
- Owner Considerations in Choosing an Integrated Delivery Model
- Evaluating Procurement Methodologies Design-Build on Smaller Projects
- Balancing the Role of the Owner’s Representative Considerations for Aviation Owners
- What Methods Are Owner’s Using to Evaluate Design-Build

Highly Effective Design-Build Teams
- Structuring a Dynamic and Resilient Design-Build Team
- The How/Why of Early Engagement of the Team (Designer, Specialty Trades, Owner, etc.)
- Integration Tools and Techniques
- Thoughtful DBE/SBE/WBE Engagement and Utilization
- Workforce Development: How Can the Industry Attract, Induct and Retain the Most Qualified Talent?
- Innovative Mentorship and Internship Practices

Infrastructure Investment and Design-Build
- Can Design-Build Assume a Leadership Role in Rebuilding Our Infrastructure?
- Challenges Facing Our Public Agencies and Their Design-Build Programs
Submitting Your Presentation Idea

All submissions must be completed online. Incomplete submissions will not be accepted. You must answer “yes” to the following questions to be considered. If selected, I/we:

1. Agree to have our draft presentation submitted to DBIA no later than Feb. 19, 2024.

2. Agree to collaborate with the Transportation and Aviation Conference Planning Committee to refine and finalize our presentation, having our final presentation submitted to DBIA no later than Mar. 15, 2024. DBIA will withdraw session presenters from the program if we do not receive final presentations by the Mar. 15 deadline.

3. Should circumstances dictate the need to transition to a virtual event, agree to pre-record your session approximately two weeks prior to the event for use during the conference.

4. Commit to be available IN PERSON in Cincinnati at a time slot determined by DBIA between Apr. 17–19, 2024.

Presentation Overview

1. Presentation Title – Title should capture the essence of the topic to be discussed and should not exceed 10-12 words.

2. Presentation Summary – Please provide an overview of the session intent and why the topic is relevant to successful integrated delivery. The summary statement should not exceed 200 words and may be used for marketing purposes should your presentation be selected.

3. Four Major Presentation Points – A learning objective is an explicit statement that clearly expresses what the attendee will be able to do after taking a course. Learning objectives should be concise and open to limited interpretation. An example of a learning statement is as follows: Define best practices for effective collaboration using technology. Suggested behavioral verbs to use when writing learning objectives include the following: acquire, analyze, apply, assess, build, clarify, compare, define, demonstrate, describe, determine, differentiate, discover, etc.

4. Presentation Level – Based on your judgment what is your content level? Beginner, Intermediate or Advanced?

5. Intended Audience – What is the intended primary audience for this presentation (check all that apply)
   - Owners (Procurement/Pre-Award Professional)
   - Owner Advisor
   - Design Professionals
   - General Contractors
   - Specialty/Sub Contractors
   - Other (please specify)
Speaker Overview

1. **Logistical Contact** – This person must be prepared to serve as DBIA’s main point of contact if selected, including coordination with co-presenters, where applicable. If the logistical contact is also a presenter, please include their information below.
   a. Name
   b. Title
   c. Email
   d. Phone

2. **Panels are limited to four (4) presenters.** The following information will be used in conjunction with the description above to determine the relevance and balance of your session proposal. This information is critical to the committee review process. Later in this process you will be asked to provide full contact information. For review purposes, however, only the following information will be requested.
   a. Presenter Name
   b. Presenter Licenses/Credentials (DBIA, Assoc. DBIA, P.E., AIA, etc.)
   c. Presenter Company
   d. Experience Presenting the Topic – Has the presenter conducted a similar topic at a DBIA or any other industry event? If so, please indicate when and where.

A committee of design-build industry experts will review and make decisions on submissions. You will be notified of the decision **no later than Sept. 30, 2023.**

All selected presenters will receive a discounted registration to the full Spring conference.

Submit your proposal [online](#) by Sept. 6, 2023.

---

**Questions regarding the submission process should be directed to:**
