The Whiting-Turner Contracting Company

Intelligence Community Campus – Bethesda (ICC-B) SATOCC

The Intelligence Community Campus – Bethesda contract was a SATOCC with the U.S. Army Corps of Engineers. This project includes the 220,000 SF secure Centrum building, 500,000 SF of renovation work in two secure buildings and, ultimately, over 720,000 SF of new construction/renovations to existing structures meeting DoD AT/FP, ballistic resistance and SCIF standards. The design-build team used innovative solutions, solid sustainable principles and Lean practices to create world-class, secure work environments. The 36-acre, highly secure campus is comprised of the following:

- Offices and workstation suites National Intelligence University 500-seat auditorium Conferencing centers
- Dining and a café Gathering terrace with green roof Fitness center Data center
