Join Us at the Largest Design-Build Gathering of the Year!

The Design-Build Conference & Expo, Nov. 5–7, is the largest national gathering of the year for the design-build market and the *only event* centered exclusively on design-build. From design-build practitioners and specialty contractors to public and private Owners, the Conference & Expo features more than 2,200 attendees and exhibitors from all design and construction sectors – a number that continues to grow year after year.

The Virtual Design & Construction Leadership Exchange (VDCLEx) returns as a half-day preconference experience taking place on Tuesday, Nov. 4. This is a great sponsorship opportunity for your company to reach a wide range of professionals interested in how design and construction technologies are driving efficiency and collaboration throughout the design, preconstruction, construction and operational phases of projects in the built environment. See page 6 for VDCLEx sponsorship opportunities. This event will include a general session, Leaders Forum and two specialized VDC tracks: one targeted to experienced VDC professionals and the other to non-VDC professionals.

DBIA's events provide unparalleled access to meet decision-makers and network with all members of project teams, including general contractors, architects, engineers, MEPs, technology providers, attorneys and finance professionals. Don't miss your opportunity to get in front of these decision-makers and industry movers!
